Titusville Morning Herald.

WEDNESDAY, SEPT. 6, 1865.

—Hon. James O. Shackleford, of Clarksville, has been appointed Judge of the Supreme Court for the Middle Division of Tennessee, vice Russell Houston, resigned.

—Hon. James H. Bell, late of the Supreme Bench of Texas, has been made Gov. Hamilton's Secretary of State.

—Hon. John S. Millson is proposed for Congress in the Norfolk District, by "Many Voters of Petersburg."

—Crops in Minnesota were less injured than interested parties represented. There will be an abundant yield of all kinds of grain.

—A lady in Willimantic, Connecticut, died from poison put up by mistake of the apothecary.

—Brown University is to have a splendid portrait of Oliver Cromwell.

—A curious case of insanity has manifested itself in a village near Brunn, in Moravia. An inhabitant of the place went one night to the cemetery, and while there stripped himself naked and employed all the articles of his dress in covering over the images of the saints, with which the tombs abound. When discovered in a state of nudity, he declared that he did not wish that the saints should be exposed to catch cold.

—The cholera is said to be making sure and steady progress in France, and the action of the Government in endeavoring to keep all knowledge of the state of affairs from the people is very generally condemned. The disease is, however, reported to have no very virulent form, though the space over which it extends is very considerable and is increasing rapidly.

—G. W. Belding, Esq., of London, England, a native of Lamoille county, Vt., has agreed to give one thousand dollars a year for the purpose of paying the tuition of children who have lost a father in the defence of the country in the late war. The schools at Johnson, Morrisville and Stowe, are the ones designed for the attendance of such scholars.

—A French editor has given the following amusing description of the effect of an advertisement: The first time a man sees an advertisement he takes no notice of it; the second time he looks at the name; the third time he looks at the price; the fourth time he reads it; the fifth time he speaks of it to his wife; the sixth time he buys.

—The Grand Duke Alexander of Russia, was put through his majority celebration in gorgeous style. The bells of St. Petersburg were rung, the military paraded, religious services held, the diplomatic body assembled, cannon fired, and high jinks prevailed generally. The boy is now a man.

—A ferocious lioness escaped from her cage in the Antwerp Zoological Gardens and frightened the visitors for about half an hour. Finally a keeper made her cubs squeal, and, when she hurried back to the cage to see them, fastened her in securely.

—A London merchant recently advertised for a clerk, who could "bear confinement." He received an answer from one who had been upwards of seven years in jail. Of course he was eligible.

—An old lady recently died in Scotland who cherished the delusion that Gen. Grant was her son.

—The revenues for the fiscal year of Cuba were $29,021,588 45.

—Of all the railroad accidents, so numerous lately, that on the Nashville & Decatur road, on Saturday, was the most terrible. The Southern bound train of nine cars, was passing over a trestle near Reynold's Station, when it gave way and the cars falling through, were piled on one another. Fifteen bodies have been recovered, but one car containing thirty colored soldiers has not yet been reached.

—The miners in the Scranton coal region who have been on a strike for two weeks past, still hold out, and there is yet no prospect of a compromise—the employers refusing to accede to the demands of the workmen, and the latter who are said to have a fund of $80,000 to fall back upon, as resolutely refusing to submit to the terms of the former. The strike extends for miles along the Lackawanna valley, but does not reach the coal fields of Wyoming, a district which is constantly improving in its developments of mineral wealth."

—Some one writing on the "oil regions" has remarked that "man cannot live on oil alone." This had its verification at Pithole. It is said that good water is very scarce. Some fortunate fellow, as I am informed, struck a flowing well of water adjacent to the city a short time since, which he sells at the wells for two shillings a barrel and through the city for one dollar, the purchaser of course furnishing barrel. In other cases, I do not

SPLENDID OPPORTUNITY.

FOR SALE.

In consequence of the ill health of one of the principal owners, the property of the

SPRING HILL REFINING CO.,

located in the Oil Region, at Titusville, Pa., will be sold cheap. This Refinery is situated on eighteen acres of Oil Land, directly in the city, which they own in fee, and which is now being developed; well down 125 feet, with good show of Oil.

Many wells are now being put down in the immediate vicinity with fine prospects.

The various buildings of the Refinery are arranged on the slope of a hill, thus avoiding the necessity of pumping, usually so great a tax upon the manufacture of Oil.

A more than abundant supply of pure Spring water is furnished by the numerous springs on premises, which might also furnish a supply for the fast growing city of Titusville.

They have tankage enclosed in buildings for 8,000 barrels Crude Oil; have eight stills with a charging capacity of 200 barrels, with all the necessary works and fixtures. Engine, two new 30 barrel lead-lined treating tanks, with splendid Blower Agitation and all machinery, apparatus, &c., which they have just put in fine order for prosecuting the business, in the most approved manner, as the quality of the oil they manufacture will attest.

There are two good dwelling houses on the property, and two or three shanties for workmen, if due notice, and room for teams, &c., &c.

Barn and stable room for teams, &c., &c.

For further particulars apply to

DOLLNER, POTTER & CO., New York.

Or to H. CURTISS, at the office on the premises, Titusville, Pa.

Terms will be made easy, and every facility will be given, by retaining skilled labor, to have the works continued without interruption. aug21tfm

AN ELEGANT RESIDENCE

FOR SALE CHEAP,

IN SYRACUSE, N. Y.

No. 228 East Genesee Street, with about six acres of land, fronting on three streets, one of which is a main avenue (100 feet wide) through the city. All or any portion of the land will be sold with the buildings.

The place is located just three-quarters of a mile from the center of the city, (on the line of a horse railroad now being built.) On an eminence commanding a fine view of the whole city, also an extended view of the surrounding country.

The house (of brick) is large and commodious, containing gas with elegant gas fixtures, water (hot and cold,) bath-room, water closet, &c., &c., in short every modern convenience, to make it desirable as a first-class residence.

The grounds are unsurpassed for beauty in the city, and very abundantly supplied with every kind of fruit which will grow in the climate, a fine flower garden, best vegetable garden in the city, fine lawns, hedges and vines in great abundance. The stables are of brick and stone with plenty of stall and carriage room, large cellars and fine sheds, all well supplied with water and every convenience for keeping stock of all kinds. It is acknowledged to be the best barn and stable in the country. The premises will be divided up if desired, and the house and stables sold with as much of the land desired, either 2½ acres, (comprising nearly all the fruit and shade trees) or 3 acres, or 4 or 5 or the whole. One third of the purchase money may remain on Bond and Mortgage for any length of time, and the balance in easy payments. Address the subscriber by mail at Syracuse, or New York City P. O. Box 4569.

in Office of

PITHOLE IS KING!

Pithole Creek! Pithole Creek!

NATIONAL

PETROLEUM ASSOCITION,

OF TITUSVILLE.

PROSPECTUS.

GEORGE B. REED & CO., having purchased twenty-two acres of good oil territory in fee in one of the best localities on Pithole Creek, which is now proven to be the best oil territory in Pennsylvania, and known as part of the Anderson Farm; the balance of this farm has been lately purchased by the Union Oil Association for immediate development. They have already completed their survey, preparatory to putting down several wells.

The property is all low, flat land, every acre suitable for boring, and is located in a very deep ravine, the same being very heavily timbered (principally cherry and oak,) and geologically has the appearance, and is similar to the famous Holmden Farm, on same creek, upon which the celebrated Frazer Island and Twin wells, now flowing about 2,000 barrels per day, are located.

There are some sixty wells going down within a short distance of the Anderson property, with good indications of oil, some of which are on adjoining farms.

The above described property we propose as a basis for the formation of an association, to be called the National Petroleum Association.

MODE OF DEVELOPMENT.—Instead of the Association being at the expense of putting down wells, we bind ourselves to furnish all materials for putting down ONE WELL, to be called the MCCLELLAN WELL and to sink the same to 650 feet, unless oil is found in paying quantities at a less depth, and to test for ten days after said well shall have been completed, the well to be commenced immediately after the organization of this association, and to be prosecuted with vigor, night and day, till completed; after which we hereby agree to surrender the same, together with the machinery and tools, to the association, free of all expense. We also agree to survey the property into one-half acre lots and furnish the Association with map of survey. It is confidently believed that the said lots can be leased for a handsome bonus reserving one-half of the oil as the land interest. Thus it will be readily seen that there can be no earthly risk to the shareholders, for the profits of the well, when completed, together with the bonus realized from the sale of the leases, will, no doubt, not only exceed the cost of the territory, but make a handsome dividend to the shareholders. Again the shareholders have defined interests (undivided,) so there can be no over issuing of stock.

Land in this vicinity is rapidly rising in value, and it is confidently believed that each share in this association will readily sell for at least six times its original cost within a short time.

The capital of the association shall be Fifty Thousand Dollars, and there shall be One Hundred shares, the original cost of which shall be Five Hundred Dollars each, and each share shall be entitled to one vote, and the association shall be immediately organized by the appointment of President and Secretary, who shall issue a regular certificate of scrip, and substitute the same for the receipt given by the agent in trust.

From the Titusville HERALD.

A New Organization.

Bogus oil companies, with high sounding names and overgrown capitals, have done more injury to the true interests of the oil regions, than any other enterprise. But, thanks to a bountiful Providence, although the oil interests have been hawked at, and nearly killed by these mushroom cuts, it is now rising on a solid basis, superior to all such humbugs, and has already commenced to take a stand upon a solid and substantial basis.

We take pleasure in calling public attention to a new kind of organization, originated by Messrs. George B. Reed & Co., of this borough. Their plan is to purchase good territory in fee and then stock it in defined interests, so that the shareholders know exactly what they hold in the association. The property is to be held by a deed of trust, and the articles of the association, with the names of the original subscribers, are to be recorded. This will prevent an over issue of stock, and secure a profitable investment of the property as selected with judgment. They have a block of land on Pithole which they are now stocking in such an economical way that they propose leasing, say one half, at present, and keep the balance for a rise of market, in hopes thereby to make a profitable investment for their shareholders.

THE ANDERSON FARM ON PITHOLE.

Editors of Morning Herald.

A few days since I surveyed and mapped for Messrs. George B. Reed & Co., a twenty-two acre tract of oil land, known as a part of the Anderson Farm, lying on the main Pithole Creek, south side of the Pleasantville. This tract of land was subdivided into half-acre lots, for the purpose of leasing to those who desire to seek the pearly to win his fortune. Shakespeare says:

"There is a tide in the affairs of man
Which taken at the flood leads on to fortune.
Omitted, all the voyage of their lives
Is bound in shallows and miseries."

The truth of that immortal saying has been most signally exemplified by the old seekers of this Oil Dorado. Having had a wide observation and experience in this region, and finding said tract of land, and its contour, timber, soil, deep depression, and all its significant oil surfacing analogous to the surroundings of the celebrated United States, Westmoreland and Hemphill wells at Pithole city, and being deeply impressed with the merits of said land for oil purposes, I take pleasure in communicating that impression to those who would take the tide at the flood and invest in oil. The land is surrounded by the finest agricultural neighborhood in this country, and is accessible by the road that radiates from Pleasantville. It is owned by the National Petroleum Association, and held in trust by and under the able management of George B. Reed & Co., of this borough, of whom all information respecting it may be obtained. Yours, &c.

H. B. FRAZER,

Civil Engineer and Surveyor.

Titusville, Aug. 9th, 1865.

The New York Herald of Sunday July 30th, says:

The Anderson farm is all flat, in a very deep ravine or gorge, and similar in all its geological formation to the Holmden farm upon which the United States well is located. This farm has lately been purchased by Messrs. George B. Reed & Co., of Titusville, Pa., who bear the reputation of being an honorable and responsible firm, and forms an association on this basis; every shareholder's interest is clearly defined, so that there can be no over issue of stock. If this plan should be generally adopted it might prevent the gigantic swindles imposed upon the public by unscrupulous stock jobbers.

Wholesale

LIQUOR STORE

I am carrying a larger stock than any one Liquor House in the Northwest.

I would particularly call the attention of the Wholesale Liquor Dealers of Titusville to my large assortment of Liquors. I can sell to you and save you the transportation from New York to your several places of business for various reasons, viz:

I am not purchasing less than Fifty to Seventy-five Thousand dollars worth at a time, and I am connected with one of the largest houses in New York City, and I am carrying in my house here from one hundred thousand to one hundred and fifty thousand dollars worth of stock. I have effected an arrangement with the railroad companies. By loading six or eight cars through I get a percentage off on the tariff, so you can readily see that it will be for your interest to call and examine my stock before going east.

TO THE RETAIL

DEALERS.

I offer greater inducements than any other house in this State. I have every thing you want to fit out your bar with and defyany house to compete with me. My stock consists in parts of
